Tools & Workflow: Jira, Azure DevOps, Git, SSIS

Finance: Investment Analysis, Public Finance, Project Financing, Financial Modeling, DCF and ROI analysis, Budgeting, Forecasting, Variance Analysis

PROFESSIONAL EXPERIENCE

Governor's Office of the Capital City | Ulaanbaatar, Mongolia

Project Financing and Debt Analyst

Jan 2024 – Jun 2025

- Built and monitored financial models, cash-flow forecasts, and repayment schedules for Ulaanbaatar's 24-megaproject portfolio; analyzed funding requirements against municipal budgets and debt-service capacity to support financing decisions by utilizing SQL, advanced excel, Python.
- Analyzed on-lending arrangements and repayment obligations for a \$95M GCF concessional loan administered through ADB; translated financial analysis into recommendations for a program targeting 10,000 affordable, climate-resilient homes.
- Prepared project and financing documentation for a \$500M international revenue-backed bond for the Selbe subcenter 12,000 residents project; coordinated inputs and approval requirements across government bodies, Deutsche Bank, and institutional investors such as Blackrock, Pimco, served as Secretary of the Capital Raising Working Group.
- Coordinated financing documentation for an \$87.2M battery energy storage project, covering \$62.2M in commercial financing and \$25M in IFC–Canada concessional capital; worked with IFC and government counterparts to support financing approvals.
- Prepared financing proposals for approximately \$180M equivalent in domestic municipal bond issuances supporting energy, wastewater, flood protection, and road projects; coordinated financing requirements and approvals with municipal teams, government agencies, and domestic banks.

Budget Analyst

Apr 2022 – Dec 2023

- Processed and analyzed more than 1 million financial records across 70+ municipal organizations using SQL, Python, and Advanced Excel; developed Tableau dashboards and automated weekly, monthly, quarterly, and annual reports for the Governor and executive leadership, enabling data-driven budget and financial oversight.
- Automated financial reporting workflows using SQL, Excel and Python reducing report preparation time from ~12 hours to 2 hours (83% reduction) while improving reporting consistency and accuracy; presented expenditure variances, financial performance, and recommendations to the Mayor, Chief of Staff, and senior municipal officials.
- Led reconciliation and resolution of discrepancies across financial datasets, applying governance and data-quality controls to maintain data accuracy and compliance.
- Analyzed heating, electricity, and water expenditure requirements for 500+ schools, kindergartens, hospitals, and other public institutions, applying tariff schedules and expenditure norms to validate budget requests and inform municipal funding allocations.

NAMO LLC | Financial and Business Analyst

Apr 2021 – Apr 2022

- Managed 3 financial statements by utilizing SQL, Python, Power BI, and Excel with advanced layering of discounted cash flow analysis and internal planning models linked to automation tools that decreased manual admin task by 48%
- Developed and maintained 20+ financial forecasting and projection models for budgeting, cash-flow planning, expenditure analysis, and financial performance monitoring.
- Established new forecasting tracking and management reporting system to improve availability and accuracy of financial data triggering a 14% increase in accuracy.
