

MUNKHNASAN OTGONBOLD

Arlington, VA | 571-238-0015 | munkhnasanotgonbold92@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with 5+ years across institutional finance, private business, and government - building Power BI and Tableau dashboards, writing SQL and Python for data profiling, validation, and reporting, applying data governance and metadata standards to keep reporting accurate and audit-ready, and using AI-enabled workflows to turn complex datasets into decision-ready insight

TECHNICAL SKILLS

BI & Visualization: Power BI (DAX, RLS, semantic models), Tableau (LOD, calculated fields, dashboards), Advanced Excel

Querying & Analytics: SQL (joins, CTEs, window functions), Python (pandas, NumPy, Matplotlib)

Databases & Cloud: SQL Server, Oracle, AWS (Redshift, Athena, Glue), Snowflake

Governance & Data Quality: Metadata & data catalogs, data lineage & dictionaries, governance frameworks, validation & reconciliation

Tools & Workflow: Jira, Azure DevOps, Git, SSIS

Finance: Investment Analysis, Public Finance, Project financing, Financial Modeling, ROI

PROFESSIONAL EXPERIENCE

Digital factory | *Operation Analyst intern*

Jul 2026 - Aug 2026

- Supported the Operations team by improving reporting processes and workflows, turning operational and financial data into dashboards that informed budgeting, forecasting, and efficiency decisions.

MDThink | *Data Analyst Intern*

Jan 2026 - May 2026

- Validated and reconciled large healthcare and Medicaid datasets using SQL Server and AWS (Redshift, Athena, Glue), performing source-to-target mapping, data profiling, control totals, variance analysis, duplicate checks using advanced queries with joins, CTEs, and window functions to maintain accurate, audit-ready data.
- Built Power BI and Tableau dashboards with 100+ DAX measures and Row-Level Security (RLS), while automating data workflows using Python, SQL, Unix Shell reducing manual effort and supporting secure operational reporting.

Trustco Bank | *Data Analyst Intern*

Oct 2025 - Dec 2025

- Analyzed financial and risk datasets with Python (pandas, NumPy) to support banking operations, compliance, and business analytics; automated reporting logic using SSIS and built Tableau KPI dashboards that enabled real-time performance monitoring and reduced report preparation time
- Validated and reconciled financial datasets in Oracle using metadata management and Azure DevOps, ensuring alignment with enterprise data standards and correcting discrepancies, which maintained data integrity for compliance reports

Governor's Office of the Capital City | *Budget & Debt Analyst*

Apr 2022 - Jun 2025

- Processed and analyzed 1M+ financial records across 70+ municipal organizations using SQL, Python, and Advanced Excel; built Tableau dashboards and automated weekly, monthly, quarterly, and annual reporting for the Governor and executive leadership, enabling data-driven budget and financial oversight.
- Automated financial reporting workflows using Python, SQL, and Excel, reducing report preparation time from ~12 hours to 2 hours (83% reduction) while improving reporting consistency and accuracy.
- Led reconciliation and resolution of discrepancies across financial datasets, applying governance and data-quality controls to ensure accuracy and compliance.
- Collaborated with ADB, EBRD, IFC, World Bank, and global investors on project financing supporting a \$95M ADB loan, \$25M EBRD loan, \$500M foreign bond, ₦500B domestic bond, and \$87.2M IFC-related blended finance issuance. Best employee of the 2024

Time Power Rich LLC | *Financial Analyst (On-Contract)*

Jan 2021 -Jun 2025

- Evaluated 300+ business and funding proposals using financial models built in Excel and Python (pandas), performed ROI analysis and risk assessments, enabling more informed lending and investment decisions
- Helped client SMEs secure over \$15M in approved financing; guided junior analysts on modeling and validation best practices.

EDUCATION

M.S, Data Analytics <i>University of the Potomac (GPA: 3.92)</i>	Jun 2025 - Aug 2027 <i>USA</i>
MBA, Project Management <i>University of Finance and Economy (GPA: 3.60)</i>	Aug 2021 - Jul 2022 <i>Mongolia</i>
BBA, Finance <i>National University of Mongolia</i>	Sep 2017 - Jun 2021 <i>Mongolia</i>
• Achievements: Best Graduate, 2021 Founder, President of Num start up club	

CERTIFICATIONS

- Python & SQL - Advanced Querying (Tech2high, 2025) | Microsoft Power BI, (PowerBI Consultant, 2023 |Tableau Desktop I & II (Novelsoft, 2023)) | Fundamentals and Innovations in City Finance (World Bank Group TDLC , 2025) | Project Management (Ganzorig Business School, 2022)

PORTFOLIO PROJECTS

The Anatomy of a World Bank Loan -

- Modeled the World Bank's public IDA portfolio - 11,404 credits/grants across 131 countries - into a Power BI star schema dashboard

IFC Investment Services Projects

- Analyzed IFC's global private-sector investment dataset - 7,083 investment disclosures, 172 countries, 26 original columns - project structure, financial product, and country distribution

The SBA Loans I Wrote at a Coffee Shop

- Cleaned, mapped, and analyzed 249,000+ real SBA 7(a) loan records end-to-end from Excel through SSIS to a Tableau dashboard

The Other side of the ledger

- Built a full EDA-to-visualization pipeline on 5,002 messy finance transactions - cleaning, feature engineering, and reporting

Hidden cost of the Healthcare billing

- Built a multi-layer pipeline (*Snowflake -> SSIS -> Tableau)* analyzing claim denial rates and provider performance
