TARGET ROLE: Data Analyst

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with 5+ years of experience in financial services, lending, and business analysis, supported by hands-on analytics work in Power BI, Tableau, SQL, Python, data governance, metadata management, and enterprise data standards across financial services, banking, and government sectors. Experienced in building business intelligence solutions, maintaining data catalog and metadata management processes, applying data governance frameworks, and supporting data science and big data initiatives. Skilled in mentoring and guiding junior analysts, contributing to data governance and metadata framework improvement, and translating complex financial and lending domain data into accurate, governance-ready insights, with exceptional attention to detail and strong commitment to data quality.

CORE COMPETENCIES

Power BI & Business Intelligence Tools | Data Catalog Platforms & Metadata Management | Data Governance Frameworks & Enterprise Data Standards | Data Science & Big Data Initiatives | Financial Services & Lending Domain Data | Mentoring & Guiding Junior Analysts | Metadata Framework Improvement | Data Lineage & Data Dictionary | Data Quality & Validation | SQL & Python Analytics | Reconciliation & Discrepancy Resolution | KPI Reporting & Dashboards | Cross-Functional Collaboration | Attention to Detail | Data Accuracy & Consistency

TECHNICAL SKILLS

Power BI (DAX, RLS) & Business Intelligence Tools | Tableau (dashboards, calculated fields, LOD expressions) | SQL (joins, CTEs, window functions, database objects) | Python (pandas, numpy, matplotlib) | Metadata Management, Data Catalog & Data Dictionary | Data Governance Frameworks & Enterprise Data Standards | Data Lineage & Data Quality Controls | Big Data & Data Science Support | Financial Services & Lending Domain Data | Advanced Excel | SQL Server | Oracle | AWS (Redshift, Athena, Glue) | Jira | Azure DevOps | Git

PROFESSIONAL EXPERIENCE

MDThink – State of Maryland (cSMS) – Data Analyst Intern

USA | Jan 2026 – May 2026

- Built Power BI and Tableau dashboards and reporting solutions; applied data governance frameworks and enterprise data standards to ensure data accuracy, consistency, and audit readiness across reporting environments.
- Maintained metadata, data dictionaries, and data catalog documentation supporting metadata management processes and data lineage; performed data profiling, validation, and reconciliation across source, staging, and reporting layers.
- Supported big data and data science initiatives using SQL and Python across AWS platforms; contributed to data governance and metadata framework improvement while collaborating cross-functionally with technical and business teams.

Environment: SQL Server, AWS Athena, AWS Redshift, AWS Glue, Power BI, Tableau, Python, Jira

Index Analytics – Data Analyst Intern

USA | Sep 2025 – Dec 2025

- Developed Power BI semantic models (100+ DAX measures, RLS) and Tableau dashboards; documented metadata, data definitions, and data catalog entries supporting metadata management and enterprise data standards.
- Implemented data quality controls and governance processes; used SQL and Python to support data science and big data reporting initiatives, ensuring data accuracy, lineage, and consistency across systems.
- Mentored and guided junior analysts on reporting best practices and validation procedures; contributed to data governance and metadata framework improvement supporting scalable, repeatable reporting.

Environment: Power BI, Tableau, Oracle SQL, SQL Server, Python, pandas, numpy, Git, Azure DevOps, Jira

Trustco Bank – Data Analyst Intern

USA | Jun 2025 – Sep 2025

- Analyzed financial services and lending domain data supporting banking operations, compliance reporting, and KPI monitoring; built Power BI and Tableau dashboards for performance tracking.
- Applied data governance and enterprise data standards to validate and reconcile financial data; maintained metadata documentation and data quality controls with strong attention to detail.

Environment: SQL Server, Power BI, Tableau, Python, Excel

Governor's Office of the Capital City – Budget & Debt Analyst Mongolia | Apr 2022 – Jun 2025

- Analyzed financial services, lending, and debt domain data supporting institutional finance, planning, and decision-making; maintained financial models, metadata, and reporting documentation across enterprise systems.
- Applied data governance frameworks and enterprise data standards to ensure data accuracy, consistency, and compliance; led reconciliation and resolution of discrepancies across financial datasets.
- Collaborated with ADB, EBRD, IFC, global investors, and financial institutions on lending and bond financing; mentored junior analysts and contributed to metadata framework and process improvement.
- Contributed to financing initiatives exceeding \$850M — including \$95M ADB loan, \$25M EBRD loan, \$500M foreign bond, \$160M domestic bond, \$87.2M IFC-related bond issuance. 🏆 Best Employee, 2024

Time Power Rich LLC – Senior Financial Analyst Mongolia | Jul 2022 – Jul 2025

- Analyzed financial services and lending domain data for 300+ business and funding proposals; conducted financial modeling, ROI analysis, and risk assessment supporting lending and investment decisions.
- Maintained financial data documentation and data quality standards; mentored and guided junior analysts on financial analysis, reporting, and validation best practices.
- Helped client SMEs secure over \$15M USD in approved financing through 300+ proposals. 🏆 Best Employee, 2023

NAMO LLC – Financial Manager / Analyst Mongolia | Apr 2021 – Apr 2022

- Managed budgeting, forecasting, lending analysis, and financial reporting; applied data standards and quality controls supporting accurate financial services domain reporting and decision-making.

EDUCATION

M.S. Data Analytics – University of the Potomac	Expected 2027 GPA: 3.90
MBA, Project Management – Finance and Economy University	Graduated
BBA, Banking & Finance – National University of Mongolia	Graduated 🏆 Best Graduate, 2021

CERTIFICATIONS

Google Data Analytics Certification | Tableau Data Analyst Training | SQL Advanced Querying & Data Analytics
